

Both pages of this form must be completed by the Landscape Design Professional and submitted along with the Plan Commission Application by the application deadline.

LANDSCAPE PLAN SUBMITTAL FORM

1) Calculation of Landscape Points Required For This Proposal:

	Planting Area	Rate	No. of Units	Required Points
1	Foundation	80 pts/100' Building Façade	Ft.	Pts.
2	Paved Areas	90 pts/20 parking spaces, OR	spaces	
		90 pts/10,000 sq. ft. of paving	Sq. ft.	*Pts.
			*Enter only the larger point total	
3	Parking Lots/ Street Yards	80 points per 100' of street frontage	Ft.	Pts.
4	Buffer Areas			
4a	Residential Buffer	120 points per 100'	Ft.	Pts.
4b	Similar Zone Buffer	80 points per 100'	Ft.	Pts.
5	Undesignated Areas	80 points/10,000 sq. ft. if the area is greater than 5,000 sq. ft.	Sq. Ft.	Pts.

2) Planting Schedule:

Plants must be identified and categorized for each of the five (5) planting areas identified by the Ordinance (and listed above). This will allow for a quick determination of compliance with the Ordinance. **(Please provide point totals for each area.)**

EXAMPLE

Location	Common Name	Scientific Name	Size at Maturity	Planting Size/ Condition	Points per Plant	Number of Plants	Points Generated
Foundation Area	Columnar Maple	<i>Acer Platanoides Columnare</i>	45 ft. high	3" B/B	30	3	90
	Upright Yew	<i>Taxus Cuspidata "Capitata"</i>	5 ft. high	24" B/B	3	8	24
Foundation Point Total							114 pts.

Continue with calculating point totals for each of the Paved Areas, Buffer Areas, Street Yards and Undesignated areas.
